

astu::VertexBuffer2< T >

```
graph BT; A[astu::Polygon< T >] --> B[astu::VertexBuffer2< T >];
```

The diagram illustrates an inheritance relationship between two C++ template classes. At the bottom is a white rectangular box with a black border containing the text 'astu::Polygon< T >'. A solid blue arrow points vertically upwards from the top center of this box to the bottom center of a gray rectangular box with a black border at the top. The gray box contains the text 'astu::VertexBuffer2< T >'. This visualizes that 'astu::Polygon' inherits from 'astu::VertexBuffer2'.

astu::Polygon< T >
